### *Biographical Summary*

A pioneer in the practical and strategic use of social media. Sue is widely recognized for her leadership, cutting-edge research and mastery of social media for catalyzing collaborative and pragmatic outcomes. In 2009 Sue was named Tech Hero by ITPRO magazine: "We look to Sir Tim, Sue Black and other tech leaders for inspiration". She has also been presented with the BCS John Ivinson award and nominated for the Computer Weekly IT Blog Awards 2009 as "Twitter user of the Year". Her leading role in saving Bletchley Park, using social media, has been widely acclaimed.

She is currently the Head of the Department for Information and Software Systems at the University of Westminster, and was the Head of the Centre for Systems and Software Engineering at London South Bank University, 2001 – 2006. Sue founded and was Chair of BCSWomen from 2001 to 2008, an innovative network for women in technology which now has over 1, 200 members.
